

Xerox® ConnectKey® 1.5  
Technology

# Xerox® ConnectKey® 1.5 Technology

The right technology for today's  
challenges and tomorrow's tasks.

**It's easy to become overwhelmed by the countless solutions that promise to fix your most pressing issues.**

Choosing the right solutions for your people becomes more complex. You want solutions that simply get it done, behind the scenes – solutions that are there when you need them.

Our multifunction printers built on Xerox® ConnectKey® Technology let you focus on your job and not the technology, providing a critical advantage for small-to-medium businesses and enterprise customers alike. This simple-to-implement technology gives you real, practical solutions that easily streamline how you communicate, process and share important information, simplify complex paper-driven tasks and drive down costs.

## Xerox® ConnectKey® Technology – simplicity redefined.

**When your business becomes powered by Xerox**, you'll benefit from a consistent user experience and practical innovations that simplify the way work gets done. As it's based on the ConnectKey Controller and ConnectKey Solutions, people can easily, securely and intelligently manage documents in today's increasingly changing work environments.

### **Solving today's complexities.**

ConnectKey is a groundbreaking architecture from Xerox that integrates leading-edge controller technology and advanced software solutions, giving you the tools you need to simplify your business-critical processes.

Whether you manage the devices yourself or choose a Xerox® Managed Print Service, you'll benefit from the tools ConnectKey offers to cut your costs and keep you moving forward.

ConnectKey is the foundation of many of our multifunction printers and a host of cloud-ready and mobile work solutions. The easy-to-use interface, practical and innovative features, and unparalleled productivity help you move paper into digital workflows, connect your information to the people who need it, and accelerate the pace of your business with faster, more flexible document management. And Xerox partnerships with McAfee® and Cisco® provide additional layers of security software and greater visibility to IT.

As Xerox® designs and manufactures both the hardware and the controller for our ConnectKey portfolio, you can be sure that everything works together seamlessly. And we have simplified customers' workflows through tools like ConnectKey for SharePoint®, ConnectKey for DocuShare® or Business Process Outsourcing integration through Xerox.

For more information on Xerox® ConnectKey, visit us at [www.xerox.com/connectkey](http://www.xerox.com/connectkey).

## Convenience for the way you work today.

**With working professionals operating beyond the confines of office walls and a 9-to-5 schedule,** multifunction printers enabled with Xerox® ConnectKey® offer mobile printing and scanning solutions that integrate fully with cloud-based technologies and mobile devices. You'll benefit from enhanced convenience, increased productivity and a more cost-effective infrastructure.

### Connect and share everywhere.

These multifunction printers enable powerful, single-touch scanning workflows in various formats such as text searchable, single/multipage PDFs that allow you to distribute and archive information wherever it's most useful. You can share your documents via standard network folders, email, cloud-based repositories (Google Docs™, Salesforce.com, Office 365, DropBox™, etc.), document management utilities or back-end enterprise resource-planning systems.

### Freedom in the office and room to roam.

With the proliferation of smartphones and tablets as must-have business tools, you need a multifunction device that's ready to connect to your on-the-go workforce. ConnectKey-enabled multifunction printers can be connected wirelessly, allowing you the freedom to place the device in more accessible locations without the additional network infrastructure costs. Plus, support for protocols like Apple® AirPrint enables users or guests to easily connect and print from their iOS® smartphones or tablets. Xerox® ConnectKey-enabled devices are Mopria™ certified. This certification simplifies the mobile printing experience for tablets and smartphones to Xerox® devices.

Whether offsite or onsite, learn more about why Xerox is the only choice for today's mobile professionals by visiting [www.xerox.com/mobile](http://www.xerox.com/mobile).

## The way you want to work.

**Your business operates at the pace of possibility.** Staying up to speed means having the right kind of help – a solution that not only empowers you to get today's work done faster, but one that also gives you the tools you need to adopt new and better ways of working with your colleagues and clients.

### Time-saving administration.

Whether you are a skilled administrator managing hundreds of devices, or one person managing a single device, Xerox gives you tools anyone can use to implement new workflow processes or other tasks. Onboard tools help you address potential issues, enabling multifunction printers built on Xerox® ConnectKey® to stay more productive, longer. And when help's needed, speed is the key. That's why we put Online Support and Embedded Help Videos that anyone can follow right on the front panel for fast assistance, and online help in our print drivers.

Our Remote Control Panel feature further reduces support and response times, enabling real-time training and troubleshooting from anywhere so you can resolve issues immediately and eliminate the need to wait for on-site visits. Customising solutions are made possible by Xerox Extensible Interface Platform® serverless technology that allows creation of ConnectKey Applications to run on these multifunction printers, without the need for additional IT infrastructure. This allows you to simplify and personalise the usability of your device with a range of capabilities from support applications to scanning. To learn more, visit [www.office.xerox.com/connectkey/apps](http://www.office.xerox.com/connectkey/apps).

### No more obstacles.

Xerox ConnectKey Technology enables features like the enhanced address book with favourites, which lets you seamlessly import your existing contacts and roll them out to multiple ConnectKey devices.

For more information on other ways you can significantly improve productivity by partnering with Xerox, visit [www.xerox.com/mps](http://www.xerox.com/mps).

## Connect safely.

**Your data. Your business.** Making your device more accessible to all comes with risks. And it's critical to understand that multifunction printers are potential points of entry for malicious activities.

### Powerful Partnerships

Xerox® ConnectKey®-enabled multifunction printers include McAfee® technology integration, resulting in the industry's first line up of multifunction printers that protect themselves from potential outside threats. McAfee's whitelisting technology ensures only safe, pre-approved system files run on your devices, minimising the need to manually update software levels against new security threats. Also, seamless integration with the Xerox® Managed Print Services toolset and McAfee allows for easy tracking and monitoring.

Plus, automatic Cisco® TrustSec Identity Services Engine (ISE) integration provides comprehensive visibility of all ConnectKey-enabled multifunction printers' endpoints to enforce IT-centric security policies and compliance.

### More secure anywhere.

Xerox® ConnectKey® provides the most comprehensive range of advanced features and technologies to help ensure your company's confidential information stays secure. Ready out of the box, our standard security features include 256-bit hard disk encryption, McAfee® protection, image overwrite, secure printing with time deletion and emailing to external mail servers, plus a host of other safeguards that help protect your business-critical information from all vulnerabilities.

### Compliance with standards.

Easy deployment and management of comprehensive, multi-layer security are critical factors in the success of any business. Xerox® technology is tested and validated to ensure protection against unauthorised access compliance with standards across multiple key industries.

For more information about how Xerox helps make you more secure, visit [www.xerox.com/security](http://www.xerox.com/security).

## Cost savings with simple solutions.

**To succeed, your business needs to reduce costs where it can.** With Xerox, you can gain an important competitive advantage with innovative tools that help you save time, control costs, simplify the way you manage printing in your office, and get a significant return on your investment.

### Convenient Authentication

Xerox® ConnectKey®-enabled multifunction printers can be upgraded with optional ConnectKey® Solutions to deliver even greater cost control capabilities. They support many card reader technologies that enable users to log into the device using a proximity card, student ID or security card, providing a secure method of authentication, tracking usage and billing.

### Saving you time so you can save money.

ConnectKey® Technology evolves with your needs, starting with very simple controls from restricting usage and regulating colour printing. The available User Permission control integrates with your internal authentication system – allowing you to prevent pre-determined or non-authenticated users from seeing specific features on the user interface, and to restrict colour printing or single-sided documents universally or by application, time of day, or day of the week. And our Microsoft® Windows® print drivers give you the ability to save different settings per application, minimising the need for your users to make changes and reducing the risk of potential errors.

### Reduced energy consumption for increased savings.

As a charter partner of the international ENERGY STAR® programme, each new generation of Xerox® products offers more functionality and uses less energy – saving our customers money and reducing their carbon footprint.

Plus, multifunction printers built on ConnectKey Technology are compatible with energy management solutions such as Cisco® EnergyWise.

For more information on Xerox's sustainability efforts, visit us at [www.xerox.com/environment](http://www.xerox.com/environment).

**Xerox® ColorQube® 8900 Colour Multifunction Printer**

- A4 colour output
- Print speeds as fast as 44 ppm for colour and black and white
- Low colour run costs and low total cost of ownership
- Innovative, award-winning Solid Ink technology

**Xerox® ColorQube® 9300 Series Colour Multifunction Printer**

- A3 colour output
- Print speeds as fast as 45 to 55 ppm for colour, as fast as 55 to 60 ppm for black and white
- High volume colour with flexible price plan
- Innovative, award-winning Solid Ink technology

**Xerox® WorkCentre™ 7200 Series Colour Multifunction Printer**

- A3 colour output
- Print speeds as fast as 20 to 25 ppm for colour and black and white
- Ideal for small work groups
- Small footprint with low noise levels

**Xerox® WorkCentre™ 7800 Series Colour Multifunction Printer**

- A3 colour output
- Print speeds as fast as 30 to 50 ppm for colour, as fast as 30 to 55 ppm for black and white
- Need for easy-to-use or professional colour workflows with a wide variety of finishing options

**Xerox® WorkCentre™ 5800 Series Multifunction Printer**

- A3 black and white output
- Print speeds as fast as 65 to 90 ppm
- Colour scanning and a wide array of finishing options, including hole punch, staple, insertions, folder and booklet maker

Build and configure your own Xerox® ConnectKey®-enabled multifunction device at [www.buildyourownxerox.com/connectkey](http://www.buildyourownxerox.com/connectkey).

## Key Features and Solutions Capabilities

<b>Convenience</b>	Standard	Apple AirPrint, Single Touch Scan, Xerox® Mobile Express Driver®, Xerox® PrintBack, Mopria™ certified
	Optional	ConnectKey for SharePoint®, ConnectKey for DocuShare®, ConnectKey Share to Cloud, Wi-Fi Kit, Xerox® Mobile Print, Xerox® Mobile Print Cloud
<b>Productivity</b>	Standard	Address Book Integration, Remote Control Panel, Application Defaults, Searchable PDF, XPS Print Kit <sup>1</sup> , PostScript Print Kit <sup>2</sup> , Print Around, TWAIN Support, Scan to Home, Scan to Email, Scan to Mailbox, Cloning, Online Support from UI and Print Driver, Colour By Words <sup>3</sup> , Xerox® Global Print Driver®, Xerox® CentreWare® Web
	Optional	ConnectKey Apps, Xerox® Scan to PC Desktop® SE and Pro, Foreign Device Interface Kit, Unicode Fonts Kit
<b>Security</b>	Standard	McAfee® Embedded, McAfee ePO Compatible, Hard Disk Image Overwrite, 256-bit Encryption (FIPS 140-2 compliant), Secure Print, Secure Fax, Secure Email, Cisco® TrustSec Identity Services Engine (ISE) integration, Network Authentication, SSL v3.0, SNMPv3, Common Criteria Certification
	Optional	McAfee Integrity Control, Smart Card Enablement Kit, (CAC/ PIV.NET), Xerox Secure Access Unified ID System® (Magstripe, Legic, Mifare, IND/EMM/HITAG for example)
<b>Cost Control</b>	Standard	Print policies, User Permissions, Xerox® Standard Accounting, Cisco® EnergyWise enabled by Xerox® Power MIB, Earth Smart Print Driver
	Optional	Equitrac Express®, Equitrac® Professional, Equitrac Office, YSoft® SafeQ®, Print Audit and many other Alliance Partner Solutions

<sup>1</sup>XPS Print Kit is optional on WorkCentre 5800 Series and 7800 Series

<sup>2</sup>PostScript Print Kit is optional on WorkCentre 7200 Series

<sup>3</sup>Only available in the optional Adobe® PostScript® 3™ driver for WorkCentre 7200 series
